GIS Generations

A network diagram logo consisting of several white dots connected by thin white lines, forming a star-like or branching structure.

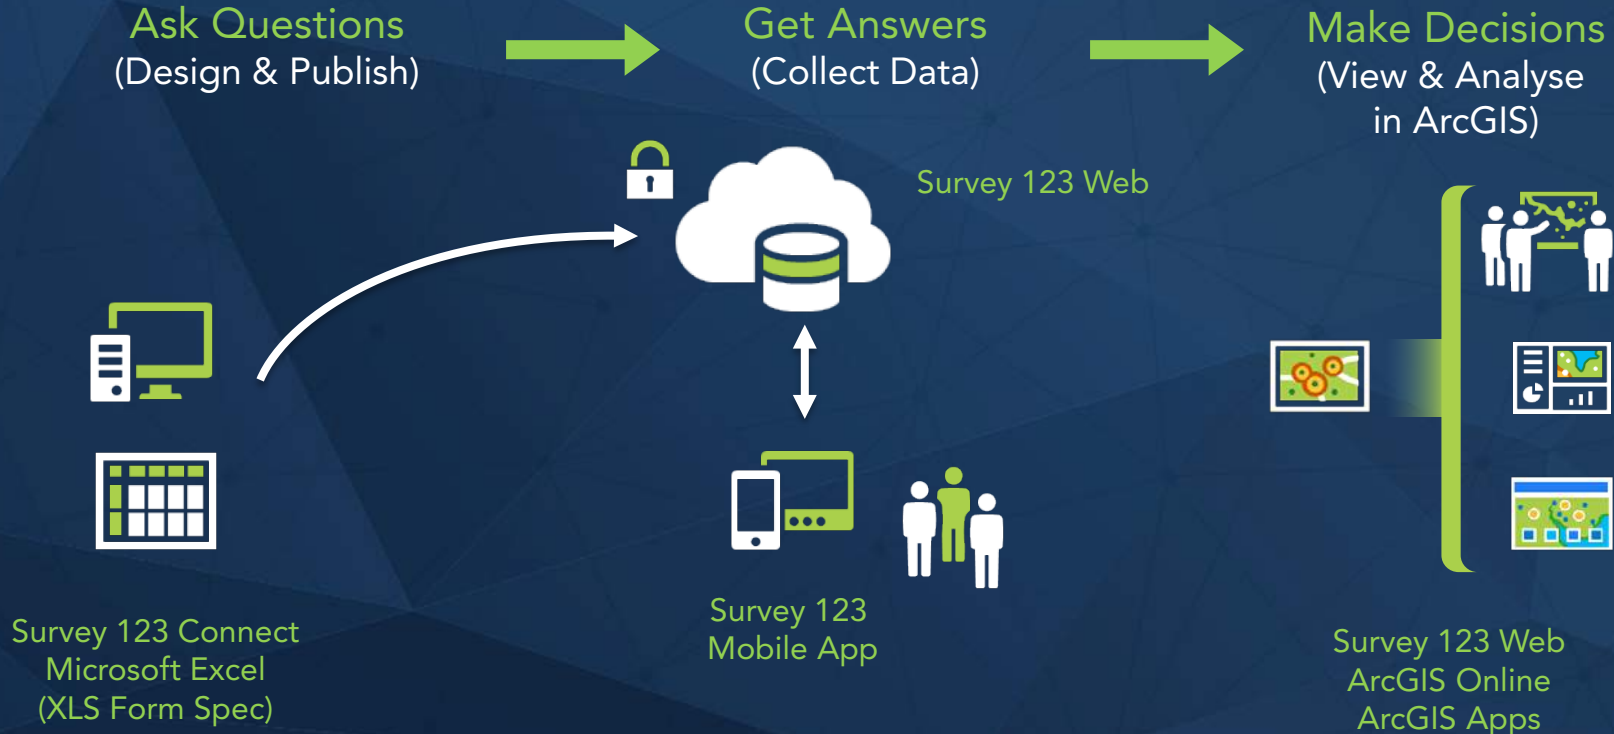

Introducing...

Survey 123

ESRI AUSTRALIA USER CONFERENCE

A network diagram logo consisting of several white dots connected by thin white lines, forming a star-like or branching structure.

Survey 123 Workflow

WRAP UP

- Field surveys are good – adaptive, intelligent field surveys are better!
- Check out the XLS Form Specification, it's very powerful
- You need to have an ArcGIS Identity – sharing surveys publically is not yet supported
- Survey 123 is by Esri Labs – check the blog, plus raise any issues on the issues tracker on GitHub

ArcGIS Earth

3D Made Easy

#ArcGISEarth

WRAP UP

- Explore 2D and 3D data in a familiar globe experience
- Combine data from multiple sources easily – KML, web services, local files
- Free, fully integrated app - beta release Q4 2015
- First release Windows Desktop and Tablets

SOLUTION MIX

Technology:

- Survey 123 Connect, Survey 123 Mobile App, Survey 123 Web
- ArcGIS Earth

Data:

- Various KML and web service examples

Resources:

- Survey 123 Web site, Blog and Tutorial: <http://survey123.esri.com/#/home>
- ArcGIS Earth: <http://www.esri.com/landing-pages/arcgis-earth>
