

# ArcGIS Online : Smart Mapping

*A Powerful & New Thematic Mapping Toolset*

ESRI AUSTRALIA USER CONFERENCE

# Smart Mapping – a new symbology capability for ArcGIS Online

*“Smart”* - Tool behaviour analyses characteristics of data

Intent : - Create better looking maps more easily

- Allow trends in data more to be more easily discovered

Applicable to a variety of layer types :

- ❑ Feature Service
- ❑ Stream Service
- ❑ Hosted Feature Layer
- ❑ GeoRSS data
- ❑ Image Service (vector field data)
- ❑ Map Service (dynamic layers)
- ❑ CSV, SHP, GPX map added data
